### **L.4 52.252-1 Solicitation Provisions Incorporated by Reference (FEB 1998)**

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The offeror is cautioned that the listed provisions may include blocks that must be completed by the offeror and submitted with its quotation or offer. In lieu of submitting the full text of those provisions, the offeror may identify the provision by paragraph identifier and provide the appropriate information with its quotation or offer. Also, the full text of a solicitation provision may be accessed electronically at this/these address(es): Federal Acquisition Regulation (FAR) clauses:

**L.5 1852.223-73 Safety and Health Plan (NOV 2004)**

(a) The offeror shall submit a detailed safety and occupational health plan as part of its proposal (see NPR 8715.3, NASA Safety Manual, Appendices). The plan shall include a detailed discussion of the policies, procedures, and techniques that will be used to ensure the safety and occupational health of Contractor employees and to ensure the safety of all working conditions throughout the performance of the contract.

(b) When applicable, the plan shall address the policies, procedures, and techniques that will be used to ensure the safety and occupational health of the public, astronauts and pilots, the NASA workforce (including Contractor employees working on NASA contracts), and high-value equipment and property.

© The plan shall similarly address subcontractor employee safety and occupational health for those proposed subcontracts that contain one or more of the following conditions:

(1) The work will be conducted completely or partly on premises owned or controlled by the government.

(2) The work includes construction, alteration, or repair of facilities in excess of the simplified acquisition threshold.

(3) The work, regardless of place of performance, involves hazards that could endanger the public, astronauts and pilots, the NASA workforce (including Contractor employees working on NASA contracts), or high value equipment or property, and the hazards are not adequately addressed by Occupational Safety and Health Administration (OSHA) or Department of Transportation (DOT) regulations (if applicable).

(4) When the assessed risk and consequences of a failure to properly manage and control the hazards warrants use of the clause.

(d) This plan, as approved by the Contracting Officer, will be included in any resulting contract.

(End of provision)

**L.6 1852.233-70 Protests to NASA (OCT 2002)**

Potential bidders or offerors may submit a protest under 48 CFR Part 33 (FAR Part 33) directly to the Contracting Officer. As an alternative to the Contracting Officer's consideration of a protest, a potential bidder or offeror may submit the protest to the Assistant Administrator for Procurement, who will serve as or designate the official responsible for conducting an independent review. Protests requesting an independent review shall be addressed to Assistant Administrator for Procurement, NASA Code H, Washington, DC 20546-0001.

(End of provision)

## **L.8 JSC 52.215-93 Instructions for Preparation of Technical Proposal (DEC 1999)**

Offerors shall submit information in their proposals in response to the items set forth below. In addition to responding to these items, offerors should include in their proposals any additional information that demonstrates their understanding of the work and their ability to perform it.

(a) Provide information which demonstrates your understanding of the work to be performed. Your discussion should include identification and proposed resolution of any potential problems likely to be encountered during contract performance. It should also reflect an understanding of the technologies involved in performing the work by indicating, for example, the application of new techniques, methods, or materials or innovative approaches to optimize product performance.

(b) Discuss how you plan to accomplish the work from a technical and schedule standpoint. Your discussion should include a master schedule of events, supported as appropriate by lower level schedule milestones. Provide a work breakdown structure showing the content of the elements of the work to be performed and the resources needed to accomplish each element. Resources should be identified in sufficient detail to permit an assessment of the adequacy of the types and amounts of manpower skills proposed, the amounts and kinds of materials, computer time, special tooling or test equipment, and other items as applicable to the proposed method of implementation. A format for the submittal of the offerors proposed resources requirement is included in provision 52.215-98 (Instructions for Preparation of Cost Proposal).

Provide information showing that your proposed approach is likely to result in products which will satisfy the requirements of the statement of work. Such information should include, by way of example and as appropriate, designs, drawings, sketches, charts, graphs, and other pictorial or graphic information; and trade studies, analyses, test results, or other supporting data.

(d) Provide descriptions and location of the research, test, and production equipment and facilities that will be available for use in performing the work. If any proposed facilities or equipment are not in place at time of proposal submission, discuss the schedule for and method of acquisition.

(e) If a key personnel factor or criterion is included in Section M, provide complete resumes for all key personnel proposed. This information must cover, as a minimum, the experience, education and training, capability, and commitment of the individuals proposed. In addition, names of customer references must be provided so that the performance of these individuals can be verified.
